عنوان مقاله:

New Solitary wave solutions for fractional DDLW equations

محل انتشار:

سومین کنفرانس بین المللی محاسبات نرم (سال: 1398)

تعداد صفحات اصل مقاله: 8

نویسنده:

خلاصه مقاله:

This present study aims to apply conformable fractional derivative for converting fractional $(2 + 1)$- dimensional dispersive long wave equations into ordinary differential equations that can be solved to obtain the solitary wave solutions by using the (G'/G)-expansion method.

کلمات کلیدی:

Space-time fractional $(2 + 1)$- dimensional dispersive long wave equations, Solitary solutions.
