خلاصه مقاله:

The present article discusses the brief history of the emergence of oil and an approach to OPEC oil policy and the need for its formation during the oil price crisis. In addition, the history of the oil economy from 1950 to 2020 has been reviewed. Finally, due to the epidemic of Covid-19 and its destructive effects, this article concludes

کلمات کلیدی:

Petroleum, Oil Shales, OPEC, Oil Economy, Covid-19
