

عنوان مقاله:

EARTHQUAKE PREPARATION PROCESS REVERBERATION IN ELECTROMAGNETIC FIELDS VARIATIONS

محل انتشار:

ششمین کنفرانس بین المللی زلزله شناسی و مهندسی زلزله (سال: 1390)

تعداد صفحات اصل مقاله: 5

نویسنده:

M Adibekyan - Western Survey for Seismic Protection State non commercial organization

خلاصه مقاله:

with the aim of earthquake precursors apportionment the earthquake preparation display of ardebil iran 28.02.1997,M=6.7 amadan iran 22.06.2002,M=6.5 , bingyol turkey 01.05.2003M=6.4 earthquakes in the time series have been studies using the ionospheric methods . a new methodology has been elaborated that provides possibility .to estimate the current seismic hazard its intensity location and time with a sufficiently big probability

کلمات کلیدی:

earthquake,precursors,seismic hazard,radio sources , ionospheric
