خلاصه مقاله:

In the present paper, we introduce the fuzzy Nehring axiom, fuzzy Sen axiom and weaker form of the weak fuzzycongruence axiom. We establish interrelations between these axioms and their relation with fuzzy Chernoff axiom. We express full rationality of a fuzzy choice function using these axioms along with the fuzzy Chernoff axiom.

کلمات کلیدی:

Full rationality, New weak fuzzy congruence axiom, fuzzy Nehring axiom, fuzzy Sen axiom, fuzzy Chernoff axiom
