خلاصه مقاله:

Taylor's Mangrove crab-eating Frog, *Fejervarya moodiei* (Taylor) which was reported first from the Indian Subcontinent in ۲۰۱۶, is being reported for the first time from West Bengal State, eastern India, based on collections comprising a total of three specimens from South ۲۴ Parganas District from ۱۹۸۳ to ۲۰۰۸, and photographic record of an uncollected specimen in ۲۰۱۹. The species is compared with *Fejervarya cancrivora* Gravenhorst, with which it is mostly confused.

کلمات کلیدی:

Brackish Water Frog, Bali Island, Kalinagar, Marichjhapi, Namkhana, Sunderban Biosphere Reserve
