

### عنوان مقاله:

A Nonlinear Optimal Control Model for a generator System

### محل انتشار:

مجله نظریه تقریب و کاربرد, دوره 16, شماره 1 (سال: 1401)

تعداد صفحات اصل مقاله: 8

### خلاصه مقاله:

In this article, we apply this new method for solving an engineering system with initial and boundary conditions and integral criterion, and we will use dynamic programming as iteration for solving model.

### کلمات کلیدی:

Optimal Control, Radon measure, Engineering system, Iteration Method, Trajectory
