خلاصه مقاله:

In this paper we prove the existence of fixed point theorems for Z-contractive map, Geraghty type contractive map and interpolative Hardy-Rogers type contractive mapping in the setting of SJS- metric spaces with two metrics. Examples are constructed to highlight the significance of newly obtained results.

کلمات کلیدی:

S^{JS}- metric space, fixed point, Z-contractive map, Geraghty type contractive map, interpolative Hardy-Rogers type contractive map
