خلاصه مقاله:

A new species of the genus *Ceratina* Latreille, ۱۸۰۲ is described from Tawang, Arunachal Pradesh, Eastern Himalaya, India. The new species is assigned to the subgenus *Ceratinidia* Cockerell & Porter, ۱۸۹۹ which was previously represented by seven species from mainland India. *Ceratina* (*Ceratinidia*) *bryanti* Cockerell, ۱۹۱۹ is also reported for the first time from India. Diagnostic features are elaborated and illustrated and distinguishing characters are discussed from closely allied species *Ceratina* (*Ceratinidia*) *bryanti* Cockerell, ۱۹۱۹. Type localities mapped and augmented. An updated checklist of *Ceratina* species and their distribution in India is mapped and discussed

کلمات کلیدی:

*Ceratinini*, Eastern Himalaya, India, taxonomy, small carpenter bee, Checklist
