خلاصه مقاله:

Species of the genus *Chalybion* Dahlbom, ۱۸۴۳ from India are studied. The species *C. gracile* Hensen, ۱۹۸۸ is recorded for the first time from India. The reported distributions of *C. bengalense* Dahlbom, ۱۸۴۵ within various states of India are augmented here. A modified key to the species of *Chalybion* from India is provided. Diagnosis, figures, and table showing comparison of newly recorded species, i.e., *C. gracile* with the widely distributed *C. bengalense* is provided. Diagnostic morphological characters of both *C. gracile* and *C. bengalense* are illustrated here.
