## خلاصه مقاله:

*Habrobracon kopetdagi* Tobias, ۱۹۵۷ and *H. ponticus* (Tobias, ۱۹۸۶) are collected from Khuzestan province and recorded for the first time from Iran. In addition, three species (viz., *H. crassicornis* (Thomson, ۱۸۹۲), *H. iranicus* Fischer, ۱۹۷۲, *H. stabilis* (Wesmael, ۱۸۳۸)) are new provincial records. A faunistic list of Iranian *Habrobracon* species with distribution, host records and brief diagnoses for new recorded species from Iran are provided.

## کلمات کلیدی:

Khuzestan, new records, faunistic list, Iran, خوزستان, گزارش, لیست گونه ها, میزبان
