خلاصه مقاله:

The family Leucospidae (Hymenoptera: Chalcidoidea) are the largest chalcidoid wasps with some distinct morphological characters. During insect collection of the Faculty of Agriculture in Karbala, *Leucospis bifasciata* Klug, ۱۸۱۴ was collected in ۲۰۱۹. It was collected using sweep nets. This is the first record of *L. bifasciata* from Iraq. Including previously recorded *L. dorsigera* Fabricius, Leucospidae of Iraq reaches to two species.
