خلاصه مقاله:

Bucculatrix albella Stainton is newly reported for the fauna of Iran. The species is collected in Khorasan-e Jonubi and Zanzan Provinces as larvae and cocoon, and adult, respectively. In the former Province it was found on red date, *Ziziphus jujuba* Miller (Rosales: Rhamnaceae) in some orchards of Birjand during ۲۰۱۵-۲۰۱۶. This species may be considered as a severe pest of jujube in Iran in the future.

کلمات کلیدی:

Bucculatricidae, *Bucculatrix albella*, leaf miner, jujube, *Ziziphus jujuba*, new record, Iran
