خلاصه مقاله:

Present paper reports four species of porcelain crabs in three genera from the Gujarat coast, India. *Ancylocheles gravelei* (Sankolli, ۱۹۶۳), *Pisidia dehaanii* (Krauss, ۱۸۴۳), *P. gordonii* (Johnson, ۱۹۷۰) and *Polyonyx hendersoni* Southwell, ۱۹۰۹ are reported from the Gujarat coast for the first time. Twelve porcellanid species are known from the Gujarat coast, including four species reported in this paper.

کلمات کلیدی:

Crustacea, Anomura, Porcellanidae, distribution, Gujarat
