خلاصه مقاله:

Sparganium L.(Typhaceae) includes five taxa in the aquatic flora of Iran. Sparganium emersum and S. natans are reported here for the first time in Iran and Flora Iranica area. These species were collected in two high mountain wetlands in Ardabil province. A detailed determination key for five Iranian Sparganium taxa is given

کلمات کلیدی:

new records, Sparganium, Neor Lake, Ardabil wetlands, Iran
