**خلاصه مقاله:**

Based on the herbarium studies and field observations, the genus *Calligonum* L. in Iran has been revised. In this paper, a brief revision of the genus in Iran is presented. Altogether, ۲۳ species are known from Iran. A key to the species, a new species namely *C. alatetosum* Maassoumi & Kazempour, short diagnose and or taxonomic discussions have been prepared. Among the cited species *C. molle* Litw. is a doubtful record to Iran. Former record of *C. tetrapterum* Jaub. & Spach from Iran is not improved.

**کلمات کلیدی:**

*Calligonum*, Flora, Iran, Taxonomy, new species, new record
