خلاصه مقاله:

Although borrowing has as long life as language learning, new technology and knowledge are led it to consider as one of the most modern processes. This paper tries to use linguistic elements and make a bridge to urbanization world. The focus of this study is on the effect of urbanization on borrowing among marginalized people who are living in Islamshahr and those who are living in the Tehran city. The results showed that there wasn't significant relation between urbanization and using Arabic and English borrowed words. Teachers should encourage students specially marginalized ones to be aware of social effects of using Taboos and slangs during their conversations
