## نویسنده:

جلال زارعیان جهرمی

## خلاصه مقاله:

Become proficient with two major modeling software packages that will enhance your stormwater drainage and sanitary system modeling and design. In two days of hands-on workshops, you can learn the US EPA's Stormwater Management Model (SWMM), and the newly-released PCSWMM 2006 graphical decision support system. Attend this comprehensive workshop to gain expertise in this next generation of modeling software tools, and evaluate how this .scaleable, integrated and open tool set can improve your current modeling work
