

عنوان مقاله:

Photovoltaic Development in China

محل انتشار:

سومین همایش بهینه سازی مصرف سوخت در ساختمان (سال: 1382)

تعداد صفحات اصل مقاله: 10

نویسنده:

Yuwen Zhao - Beijing Solar Energy Research Institute ۳, Hua Yuan Road, Beijing ۱۰۰۰۸۳, China

خلاصه مقاله:

The status of PV development in China, including R&D activities, PV industry and market are described in this paper. In the R&D, the best results of various solar cells, PV materials, such as mc-Si ingots and EVA, Ag paste, Al paste etc., and PV system technology are given in the paper. At same time, PV development trend in futures

کلمات کلیدی:

PV R&D activities, PV industry, PV applications & market potential
