## خلاصه مقاله:

Tourism as it is so important in different aspects like economic, social, cultural and so on and in some tourism books it is called without smoke factory industry which it shows importance of tourism promotion. In the hectic society in which we live there is a growing need for nature as a source of relaxation and recreation. Purpose of this paper is introducing one of small cities located in Semnan province which named Shahmirzad; it is presented some introduction of its qualifications and potentials and its main feature which is green space, it can attract different types of tourists, it is so beneficial for environment, health and so on and should pay more attention to tourism development of the city in different aspects.

## کلمات کلیدی:
