

عنوان مقاله:

Conservation without conservation How vernacular architecture of Iran can sustain

محل انتشار:

کنفرانس ملی معماری و منظر شهری پایدار (سال: 1393)

تعداد صفحات اصل مقاله: 6

نویسنده:

Farzin Izadpanah - Faculty of Architecture, Shahid Bahonar University of Kerman

خلاصه مقاله:

Safeguarding the vernacular architecture is a challenging issue in developing countries, such as Iran. Here, through a case study, the author explores how non-quantitative, intangible themes and ethics have a role in protecting .vernacular buildings in absence of organized and academic techniques, theories and management

کلمات کلیدی:

Ethics in conservation, Intangible heritage, Cultural heritage in Iran
