## خلاصه مقاله:

Background: Today, one of the important objectives of sports management in the field of human resources is attracting, organizing, and retaining volunteers. The current research aimed to introduce the factors affecting the attraction of the volunteer forces in sport boards of Kermanshah province. Materials and Methods: Hence, 125 volunteers of these boards have been randomly selected and responded to two standard questionnaires. The data were analyzed using Kolmogorov-Smirnov test, t test, and Friedman test. Result and Discussions: The findings showed that reduced individual success is the only factor affecting the burnout of research population. Also, the findings showed that the factors such as emotional fatigue, depersonalization, and involvement in performance did not affect the burnout of volunteers in sport boards of Kermanshah province. Conclusion: It is recommended that the qualitative research methods be used for identifying the factors affecting the burn-out of sports boards' volunteers

## کلمات کلیدی:

Burnout, Volunteers, Sport Boards of Kermanshah Province
