خلاصه مقاله:

Humans have emerged as the most distinctive and brainy species of the world. Their organized patterns of attitudes and behavioral features include a good personality. Personality development has always played a very necessary role in enhancing the thought process, temperament as well as the character of a person. Personality development and acquiring English language to improve one's communication skills go hand in hand. The present paper focuses on the necessity of acquiring a language like English to enhance one's personality. The purpose of this paper is two-fold. On the one hand, it is hypothesized that personality is a dominant factor in achieving the desired aim in life and on the other hand the paper focuses on the dominance of English language to attain a good personality. This paper has also emphasized the relationship between the acquisition of English language and a good personality. It has also tried to give a few strategies to make it possible for those who are seeking to have a good personality, to acquire a few tips to learn English language adding a feather to their cap of personality development.

کلمات کلیدی:

Personality development, English language, Acquisition
