## خلاصه مقاله:

Globalization is a subject that attracted to itself many of the intellectuals and scholars as well affected many areas of human life spheres such an economy, culture, policies and also rights dominated over the fields specially. In the realm of rights, nowadays, human rights accounted for as one of the reasons for globalization. Membership of most countries in the world in different documents and various human rights that track founder unit standards and accepted under the title of human rights going through major transformations are affirmed this. But despite this view on the necessity of respect for national human rights initiatives countries that any cheapness is his special called condition means the right to enter the restrictions to this human rights and principles, going through major transformations in conflict with this type of globalization. This is the era of contemporary period restrictions on the right to account. Check . this restriction and opposition to the condition with the globalization of human rights counted as issue this article

## کلمات کلیدی:
