خلاصه مقاله:

Due to the information asymmetry, investors should have confidence for financial investment and the factors that affect the trust of investors is the independence of the audit committee. Therefore, in this study the impact of independent audit committee on investment decisions at companies listed in Tehran Stock Exchange were tested by using experts opinion and measured by Likert questionnaires and regression. The results showed a significant positive effect of independence audit committee on investment decisions in Tehran Stock Exchange

کلمات کلیدی:

Independence, Audit Committee, Investment, Tehran Stock Exchange
