خلاصه مقاله:

The discussion in relation to the wisdom and inspiration and the religious law has a long time history being focused and paid attention by many religious thinkers and philosophers and responding various comments in this regard; the Islamic philosophers not only believe in the value and reliability of the wisdom and inspiration, but also they made a coordinative proof of the religious law and wisdom in this case. The mankind is always required the wisdom and the conduction of the prophets frequently; in order to recognize the happiness and real perfection path, they have to obey and follow the inspiration way in this pavement. The wisdom and inspiration are two certain proofs of the God and the mankind's happiness is governed by the cohesion of hese two cases potentially. The power of the wisdom cannot find a way without the inspiration going towards the eternal perfection. Hence, the divine wisdom implies that the God gives the path of onduction to the humanity releasing them out of any wrong actions; thus, the whole struggles of the .Islamic thinkers are to collect the wisdom and religious law together to obtain the real perfection of the life pavement
