خلاصه مقاله:

The present study surveyed the great literary figures of Constitution Movement and Era represented in Tabriz Constitution Museum. The object was a historiographical study of the constitution era s literature which is a true representative of its time s and writers socio-political, cultural and intellectual concerns. The study was of qualitative type with descriptive approach using content analysis as its instrument to have a deeper look at the literary works impact over its time s socio-political issues. The results revealed that the literary figures along other freedom-fighters, intellectuals, political figures and even common people contributed to the democratic demands of their time
