خلاصه مقاله:

Since the people of United Nations stated faith to human right in one prism, one of UN purposes for international partnership is due to developed 2 respects to human right and basic freedom for with respect to gender, language or religion. All basic unites of UN committed to realize this purpose. We can divided support of human right in one general view to 2 groups: the first group includes UN supervision works structure and second group include human right structures. Since forming origin or UN supervision structures involvement is different, these structures divided to some groups and they divided to some groups. One group is that organized directly or indirectly of the organization prism and they include their major duties description. And it is UN and then is social – economic council supervised committees or re- units. In this paper study UN major unit s role in forming human international right

کلمات کلیدی:

Human international right, forming human right, International prism, UN major pillars
