

**عنوان مقاله:**

Management of Sentinel Lymph Node Positive Breast Cancer

**محل انتشار:**

دوازدهمین کنگره بین المللی سرطان پستان (سال: 1394)

تعداد صفحات اصل مقاله: 1

**نویسنده:**

Islam Gharib Islam Gharib - *Radiation Oncologist-Canada*

**خلاصه مقاله:**

Originally, a negative sentinel node biopsy (SNB) was intended to identify those patients for whom axillary lymph node dissection could be omitted. Increasingly, dissection is also omitted for SNB-positive breast cancer. The presenter will review appropriate selection of patients for SNB, processing and reporting of SNB results, the implications of a positive SNB, and evidence favoring the omission of completion axillary dissection in select patients
