خلاصه مقاله:

Patents are valuable technical and legal documents which are available to everyone free of charge. It has been some research about how to use these documents to determine the Technology life cycle (TLC). After reviewing the previous methods, a simple step by step method has been presented to determine the TLC of a technology. Using this method the RFID Technology life cycle has been analyzed and the results have been compared with a previously researched

کلمات کلیدی:

Technology life cycle (TLC), Radio-frequency identification (RFID), Patent-Mining
