## خلاصه مقاله:

The revision of health benefits package is considered a potential policy for making reforms in the healthcare system. However, limited studies have been carried out on the concept of revising health benefits packages and finding applicable levers to effective revision and also determining the characteristics of a desirable model. This paper investigates the concept and the levers in revising the health benefits package and also suggests the characteristics of a desirable model.

## کلمات کلیدی:

(Revision, Health Benefits package, Concept Clarification, Universal Health Coverage (UHC)
