## خلاصه مقاله:

Urban furniture is part of the urban landscape, which is always beautiful, coherent and appropriate, which makes the city environment eye-catching and, along with other factors, provides a pleasant environment and a suitable atmosphere for urban living and urban vitality. In addition to the visual aesthetic component, the main purpose of using urban furniture in urban and public spaces is its specific function in the environment, which brings about the vitality of a city that will satisfy citizen s satisfaction. Public spaces in the new cities now lack identity and vitality. Today, providing vivacity and urban vitality has become one of the main concerns of the urban management system, especially in developed countries. The purpose of this research is to investigate the role of urban furniture in urban vitality.
