## خلاصه مقاله:

The incident of Islamic Revolution in 1979 and following it the fundamental changes in dimensional structure of international power may define primarily the great historical objects, which appeared with Islamic Vigilantism at regional level. The revival stream of Islamic politics at present time, which has been affected by strong knowledge effects and under influence of Islamic Revolution, was practically and clearly manifested and exposed the major regional dependent systems caused by introducing Islamic policy principles. Islamic vigilantism (awakening) is a part of illustration process and uprising among Islamic Community (Umma) that it finally reaches them to cultural, intellectual, and political independence. After interpretation of Islamic Revolution reflects an national and international levels in this research based on peaceful process and idealistic theories and then dealing with subject of Islamic vigilantism as one of the external manifestations of Islamic Revolution this question will be answered that: What are some reasons and signs of dimensional change in international power and those factors and what is the Islamic Revolution prophecy (mission) in this regard Afterwards, with employing research documents, sources, and findings, it is deduced that in today chaotic world, rather than modern reengineering on ideological, cultural, and religions issues and playing a positive and effective role in changing of international power equations, Islamic Republic should consider the regional and international requirements and contingencies with improving domestic potential and through .adaptation to the objectives, which were drawn by the existing tools, it may create a clear outlook in this course
